SUMMARY

Detail-oriented Web Developer with hands-on experience building responsive, interactive, and user-focused web applications using HTML, CSS, JavaScript, JSX/TSX, React, and Vite. Experienced in developing e-commerce platforms, portfolio websites, and converting Figma designs into functional, production-ready interfaces. Skilled in implementing responsive layouts, interactive features, product and order management workflows, map-based functionality, and cross-device optimization. Familiar with Git/GitHub, Bootstrap, Tailwind CSS, and modern development workflows, with experience using AI-assisted development tools to improve productivity and development efficiency. Strong problem-solving, attention to detail, and ability to independently manage projects from development through testing and deployment.

KEY SKILLS

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- JSX
- TSX / TypeScript
- Vite
- Performance Optimization
- Bootstrap
- Tailwind CSS
- Responsive Web Design
- Figma-to-Code
- UI Development
- CSS Animations
- Git & GitHub
- Cross-Browser Compatibility
- Chrome DevTools
- Website Testing & Debugging
- Web Deployment
- E-commerce Development
- AI-Assisted Development
- API Integration

WORK EXPERIENCE

Web Developer — Freelance **Sept 2025 - Present**

Project Manager Portfolio / Independent Project

- Developed a 1-page responsive portfolio website using HTML, CSS, TSX, and JSON.
- Implemented 4+ interactive components/sections, including project showcases and interactive content areas.
- Added 3+ visual features, including animations, light mode, and responsive layouts.
- Optimized the website for desktop, tablet, and mobile screen sizes.
- Built and organized a project showcase to present professional experience and completed projects.
- Tested and refined the website across multiple screen sizes before deployment.
- Deployed the completed website to GitHub for public access.
- Developed reusable and well-structured components to improve code organization, maintainability, and consistency across different sections of the website.

E-commerce Website/ Client Project

- Developed a full-scale responsive e-commerce platform from scratch using JSX, JavaScript, HTML, CSS, and Vite.
- Implemented 5+ core customer features, including product categories, shopping cart, checkout, customer accounts, and delivery-location selection.
- Developed 2 dedicated management interfaces for administrators and delivery riders.
- Implemented product management functionality for adding, editing, and organizing products.
- Built order and delivery workflows connecting customers, administrators, and riders.
- Integrated map-based delivery location functionality to capture customer delivery destinations.
- Developed responsive interfaces optimized for desktop, tablet, and mobile devices.
- Tested and refined multiple user workflows to ensure consistent functionality across the platform.
- Independently managed the development, testing, and deployment of the completed website with AI-assisted development tools.

Web developer - Zyonel Technologies **May 2025 - Oct 2025**

- Interpreted and transformed Figma UI/UX designs into responsive, production-ready web pages using HTML, CSS, and JavaScript.
- Implemented Bootstrap, tailwind CSS and modern CSS techniques to achieve consistent responsiveness and cross-device compatibility.
- Collaborated on replicating professional website interfaces, gaining hands-on experience in layout structuring, component reusability, and accessibility standards.
- Broke down complex designs into modular, manageable tasks improving workflow efficiency and understanding of project development cycles.
- Utilized Git and GitHub for version control, ensuring clean code management and collaboration readiness.

EDUCATION

Caleb University
Bachelor of Computer Science
